

Northern Peru 25 oct - 9 nov 2008

Report by
Roger Ahlman & Charlie Vogt

General

This trip was organized by Andean Birding. It turned out to be a very good trip without any hazzles and with a lot of birds seen.

Leader - Roger Ahlman

Co-leaders - Kevin Easley, Jason Horn, Charlie Vogt

Participants - Christine Daley, Duncan Himes, Dylan Edwards, Kevin O'Leary, Tim Fitzpatrick, Paula Reynosa

Driver - Wilson Mendoza

All photos by Roger Ahlman© (rahlman2002@yahoo.se)

Front cover – Black-chested Buzzard-Eagle fighting with American Kestrel at Hacienda Limon

Trip Highlights

With a 4:6 guide-to-passenger ratio this trip was bound to reap a bounty of specialties for northern Peru. Our itinerary actually passes through 6 endemic bird areas; Marañon, Tumbesian, Ecuador-Peru East Andes, Andean Ridge-top Forest, North-east Peruvian cordilleras, and Huallaga Valley! The triplist totaled 525 species seen and many more heard. We saw 30 Peruvian endemics and 2 were heard only.

Highlights included Great Spinetail at San Marcos which was seen after great effort and finally corralling it. Slender-billed Miner is a bird I have searched for in vain many times in Ecuador so it was great to see 2 individuals on the way to Celendin probing about and flying off, like mini-Whimbrels! The drive from Celendin to Leimebamba is truly amazing, spanning an awesome diversity of landscape and habitats. The Scarlet-fronted Parakeets and Black-necked Woodpeckers, painted the desert scene of the Marañon Valley along with appearances of the Gray-winged and Buff-bridled Inca-Finch. Above in the elfin cloud forest at treeline we had rare cameos of Coppery Metaltail perching briefly on the treelet tops, (another one I missed on the last trip). Around Leimebamba, Yellow-scarfed Tanager, Yungas Pygmy-Owl, Andean & Golden-plumed Parakeet, Gray-breasted Mountain-Toucan and Golden-headed Quetzal. In the river along the road to el Chillo we observed Fasciated Tiger-Heron and Torrent Ducks. Arriving at the hacienda we were greeted by Koepke's Screech-Owl roosting in a Cyprus by the front steps.

Outside La Florida/ Pomacochas after an afternoon's effort with teasing fly-bys, we finally had a number of gripping views of the Marvelous Spatuletail the next morning with Santos Montenegros on his finca. This spectacular hummer appears to have a pair of small Morphos hovering behind it; those incredible spatules!

We arrived Abra Patricia to a rare clear afternoon laced with some beauties, a pair of Royal Sunangels, raucous White-capped Tanagers, Plain-breasted Hawk and Inca Flycatcher. That night the magic continued with perched and flying views of Andean Potoo and hooting of White-throated Screech-Owl and a Long-whiskered Owlet close to the trail! No show on the owlet but I got a great recording of it. Early morning on the Mono Trail yielded Black-throated Tody-Tyrant, Jet Manakin, Variable Antshrike. Later down the road, Bar-winged Wood-wren and Chestnut-breasted Wren. The next day we worked the road down to Afluentes and Puente Aguas for Huallaga Tanager, Red-ruffed Fruitcrow, Vermillion Tanager and Versicolored Barbet.

On the road to Bagua Chica we had Rufous-vented Tapaculo, Marañon Spinetail, Speckle-breasted Wren. Near the town cemetery, Little Inca-Finch, Pacific Parrotlet & Pygmy-Owl, Collared Antshrike (Marañon subspecies), Red-crested Finch and Rufous-fronted Thornbird. Headed to Jaen in a roadside marsh, Spotted Rail, Rufous-sided Crake, Least Bittern (possibly 1st record for Marañon). Near Tamborapa Chinchipe Spinetail, Marañon; Spinetail, Slaty –Antshrike & Crescentchest as well as stunning views of Tataupa Tinamou lurking like a Plumbeous Rail in the undergrowth. Back near Jaen we spotted what we initially passed off as a Variable Hawk, however the back was dark and the rufous was on the shoulder. We eventually studied both light and dark morphs of a pair of White-tailed Hawks, apparently resident in the area. The species was previously only known from extreme SE Peru with a recent siting from Satipo, C Peru.

Having worked at Harvard's MCZ, I was anxious to visit that mecca for zoologists, the legendary Porculla pass (2145m), epicenter of the Huancabamba Depression, the lowest point of the Andean Cordillera between Venezuela and Chile. Because of its low altitude, it forms both a biogeographic connection between the lowland forests of the Pacific coast and the Amazon basin, as well as an ecological barrier between the Northern Andes and Central

Andes. It represents the most important filter and barrier affecting biotic migration in the Andes and according to Vuilleumier, probably accounts for a larger increase in bird species diversity than any other barrier along the Andes. Many bird species find their northern or southern limits here.

While the views are great at the pass, the vegetation is highly degraded. However, down the west side at Limon de Porculla we birded forest patches and found Black-cowled Saltator, Bay-crowned Brush-Finch, Henna-hooded Foliage-Gleaner, Porculla Hermit, Tumbesian Tyrannulet and Chapman's Antshrike. The Elegant Crescentchest was ridiculously abundant and often in the open, so much harder in Ecuador. Late afternoon behind the Hotel El Remanso were Burrowing Owl, Short-tailed Field-Tyrant and Lesser Nighthawk. Back to the pass the next morning we saw all the same species plus Rufous-necked Foliage-Gleaner and Piura Chat-Tyrant. Down near Olmos, Baird's Flycatcher, Gray-and-white Tyrannulet and Tumbes Sparrow. On a trail behind the Guan Center using Pygmy Owl playback we were mobbed by Crimson-breasted Finch, Collared Warbling-Finch, Rufous & Baird's Flycatcher, Pacific Elaenia, Short-tailed Woodstar and Snowy-throated Kingbird as well as the Pacific Pygmy Owl itself! Also a pair of the unique Sechura Fox (Tumbesian endemic) paraded by. I had waited years to see this mythical mammal and did finally see it around Zapotillo, Ecuador in March

Early start to Quebrada Limon where we saw 15 Peruvian Thick-knees in the dry wash and heard the "Trilling" Lesser Nighthawks. A 45 min walk up the cliff-walled valley through dry forest got us to the guan area and we eventually had views of a total of 10 White-winged Guans in a number of areas perched and flying, painting the air with their white brushstrokes. Also seen were White-headed & White-winged Brush-Finch, Ecuadorian Piculet, Tumbes Pewee, Yellow-tailed & White-winged Orioles. A West Peruvian Screech-Owl crashed through the undergrowth and perched in a tree cavity. Late pm found us on the Pacific coastline, among many shorebirds, Great Grebe, Waved Albatross and Peruvian Boobies on the horizon as well as cracking views of Many-colored Rush-Tyrant, Wren-like Rushbird and Coastal Miner. What a wonderfully contrasting day!

At Bosque Pomac we scrutinized and detected Tumbes Swallows at a distance. We had better views of the Rufous Flycatcher - a weird Myiarchus gone Becard. Also, Cinereous Finch and wonderfully confiding views of the Peruvian Plantcutter buzzsaw-singing on a small mangrove-like shrub. Afternoon drive to Chaparrí Lodge where we had King Vulture, Tumbes Hummingbird, Tumbes Tyrant, Short-eared Owl (1st record for the lodge), Scrub Nightjar, Purple-collared Woodstar and 100 Sulphur-throated Finch!

Itinerary

Oct 25 - 8am Flew Lima to Cajamarca met by driver Wilson Mendoza, Kevin Easley and Jason Horn. Drove to Rio Chonta for the Gray-bellied Comet, pm San Marcos for Great Spinetail, overnight Costa del Sol in Cajamarca.

Oct 26 - 5am breakfast then off to la Encañada for Baron's Spinetail and Jelski's and White-browed Chat-Tyrant. Lunch near Cruz Conga. Later stopped at Cajamarca Antpitta site, heard 2 individuals and some glimpsed it before a soaking rain. Drove straight to Celendin, overnight Hotel Amazonas.

Oct 27 - 4:30am breakfast at hotel, 1.5 hr drive to Gray-winged Inca-Finch Site above hacienda Limon, then Bombax Forest for Black-necked Woodpecker, Buff-bridled Inca-Finch and Yellow-faced Parrotlet. Return to Celendin for the night.

Oct 28 - 4:30am breakfast at hotel, drove straight past Hacienda el Limon to Bombax forest and crossed Marañon river. Km 52 had lunch and observed Coppery Metaltail. Pm Abra Barro Negro looked for Russet-mantled Soft-tail, no luck. Saw Yellow-scarfed Tanager, Golden-plumed Parakeet and Yungas Pygmy-Owl. Hotel los Condores, Leimebamba.

Oct 29 - am Road to Atuel Andean Parakeet, Maroon-chested Chat-Tyrant, returned to Abra Barro Negro. Lunch at hotel, drive to el Chillo where we had Koepke's Screech-Owl and Line-cheeked Spinetail ssp.antisensis.

Oct 30 - early start to clear the roadwork area before 8am. Stopped by the riverside for Mitred Parakeet and Speckle-breasted Piculet. ECOAN reserve between Pedro Ruiz and la Florida for 2 female Marvelous Spatuletails. Walked up Santos Montenegro finca trail for flybys of male Marvelous Spatuletail. Lunch at la Florida, installed at Hotel Puma Pomacochas. Pm lake Pomacochas for Subtropical Doradito, Puna Snipe, Plumbeous Rail.

Oct 31 - Santos guided us and finally saw perched and hovering views of male Marvelous Spatuletail. Drove to

Abra Patricia, box lunch at Royal Sunangel trailhead with good views of male and female. Pm walked down road for White-capped Tanagers, Inca Flycatcher. At dusk, Andean Potoo. After dinner heard Long-whiskered Owl and White-throated Screech-Owl. 3 nights at Long-whiskered Owllet Biological Station, Abra Patricia.

Nov 1 – Mono trail, saw Howler Monkey, Black-throated Tody-Tyrant, Jet Manakin. Drove down road for Bar-winged Wood-wren, Chestnut-breasted Wren. Lunch at lodge. Pm drove/birded to Afluentes, Cock-of-the-Rock, Huallaga and Black-bellied Tanager.

Nov 2 – drove to bridge near Aguas Verdes, some birded slippery rocky sidetrail then all birded road. Later above Afluentes, Red-ruffed Fruitcrow, Vermilion Tanager, Versicolored Barbet.

Nov 3 – Grallaria trail for Rufous-vented Tapaculo, Sulphur-bellied and Inca Flycatcher. Drove Pedro Ruiz to Bagua Chica for Chestnut-fronted Thornbird and Speckle-breasted Wren. Pm road past Cemetery near Bagua Chica for Little Inca-Finch, Brown-crested Flycatcher, Red-crested Finch, Rufous-fronted Thornbird and Marañon Antshrike. Overnight Hotel Wilson, Bagua Chica.

Nov 4 – Bagua Chica to Jaen. Road to Imazita Orazucar towards Nuevo Salem for rice fields for Spotted Rail, Least Bittern. On return to Bagua Chica, Oriole Blackbird. Chiclayo – Jaen junction for Chinchipe Spinetail. White-tailed Hawk. Lunch across from Hotel Caesar. Pm road to la Coipa Rumpite (Tamborapa) Marañon Crescentchest, Tataupa Tinamou, Marañon Spinetail.

Nov 5 – Jaen to Olmos. Birded rice paddies around Jaen, drove to Restaurant las Gemelas km 81 for early lunch. Porculla Pass down to Limon de Porculla for Black –cowled Saltator, Bay-crowned Brush-Finch, Henna-hooded Foliage-Gleaner, Porculla Hermit and Chapman’s Antshrike. Drove to hotel el Remanso, Olmos.

Nov 6 – Limon de Porculla for Rufous-necked Foliage-Gleaner and Piura Chat-Tyrant. Late am to Roger’s spot for Tumbes Tyrant (no show) but had Gray-and-white Tyrannulet, Baird’s Flycatcher and Tumbes Sparrow. Lunch at hotel pm Guan Center and trail behind for Sechura Fox, Harris Hawk, Collared Warbling-Finch, Short-tailed Woodstar, Crimson-breasted Finch, Rufous Flycatcher, Snowy-throated Kingbird. Overnight hotel el Remanso, Olmos.

Nov 7 – 4am left for Quebrada Limon. Peruvian Thick-knees, Lesser Nighthawks in the dry wash. White-winged Guans showed beautifully up the canyon. White-headed and White-winged Brush-Finch, Tumbes Pewee and West Peruvian Screech-Owl. Back down the road for Tumbes Tyrant. Lunch Olmos, drive to Chiclayo, birded on the beach for Many-colored Rush-Tyrant, Wren-like Rushbird, Coastal Miner, Great Grebe and many shorebirds plus Peruvian Boobies and Waved Albatross. Overnight Costa del Sol, Chiclayo.

Nov 8 – Sanctuario Historico Bosque Pomac. Tumbes Swallow, Rufous Flycatcher, Cinereous Finch and Peruvian Plantcutter. Drove to Chaparrí Lodge. Sulphur-throated Finch, King Vulture and Tumbes Hummingbird. Short-eared Owl in the evening. Am birded around the lodge and relaxed before the drive to Chiclayo and flight to Lima.

List of species

(*=Peruvian endemics)

Pale-browed Tinamou *Crypturellus transfasciatus*

1 seen at Quebrada Limon

Tataupa Tinamou *Crypturellus tataupa*

1 seen and 1 heard at Tamborapa

Andean Tinamou *Nothoprocta pentlandii*

1 seen at Limon de Porcuya

Pied-billed Grebe *Podilymbus podiceps*

3 seen at Tianjones reservoir

Great Grebe *Podiceps major*

1 seen at the coast near Santa Rosa, 6 seen at Tinajones reservoir

Waved Albatross *Phoebastria irrorata*

2-3 seen from the shore near Santa Rosa

Peruvian Pelican *Pelecanus thagus*

2 seen at the coast near Santa Rosa

Blue-footed Booby *Sula nebouxii*

3 seen at the coast near Santa Rosa

Peruvian Booby *Sula variegata*

25 seen at the coast near Santa Rosa

Neotropic Cormorant *Phalacrocorax brasilianus*

Singles in a river near Limon de Porcuya and hundreds at Tinajones reservoir

Cocoi Heron *Ardea cocoi*

3 at Tinajones reservoir

Great Egret *Ardea alba*

Common to fairly common in wetlands and rice fields.

Tricoloured Heron *Egretta tricolor*

1 at Tinajones reservoir

Little Blue Heron *Egretta caerulea*

5 seen along the Utcubamba river and 3 at Tinajones reservoir

Snowy Egret *Egretta thula*

Common in wetlands and rice fields in the west and around Bagua Chica

Cattle Egret *Bubulcus ibis*

Common

Striated Heron *Butorides striatus*

Singles in wetlands and rice fields

Black-crowned Night-Heron *Nycticorax nycticorax*

4 seen at Tinajones reservoir

Fasciated Tiger-Heron *Tigrisoma fasciatum*

Altogether 6 seen in the Utcubamba river

Least Bittern *Ixobrychus exilis*

1 male seen north of Bagua Chica.

A significant range extension!

Puna Ibis *Plegadis ridgwayi*

40 seen between Cajamarca and Celendin and

1 seen at Tinajones reservoir

Muscovy Duck *Cairina moschata*

2 seen near Bagua Chica and 2 seen near Limon de Porcuya

Torrent Duck *Merganetta armata*

4 seen in the Utcubamba river

White-cheeked Pintail *Anas bahamensis*

2 seen at lake Pomacochas

Blue-winged Teal *Anas discors*

1 seen at lake Pomacochas

Cinnamon Teal *Anas cyanoptera*

3 seen near Santa Rosa and 2 seen at Tinajones reservoir

Least Bittern at Bagua

Black Vulture *Coragyps atratus*

Common

Turkey Vulture *Cathartes aura*

Common

Greater Yellow-headed Vulture *Cathartes melambrotus*

1 seen at Aguas Verdes

Andean Condor *Vultur gryphus*

1 ad seen above Leimebamba

King Vulture *Sarcoramphus papa*

1-2 seen adult at Chaparrí

Osprey *Pandion heliaetus*

5 seen at Tinajones reservoir

Swallow-tailed Kite *Elanoides forficatus*

5+5 seen at Afluentes

Pearl Kite *Gampsonyx swansonii*

1 seen near Bagua Chica, 4 seen between Chamaya and Abra Porcuya, 1 seen near Bosque Pomac

Double-toothed Kite *Harpagus bidentatus*

1 ad and 1 juv seen at Aguas Verdes

Plain-breasted Hawk *Accipiter ventralis*

1 seen between Cajamarca and Celendin

Savanna Hawk *Buteogallus meridionalis*

2 seen near Bosque Pomac

Harris' Hawk *Parabuteo unicinctus*

1 seen near Bagua Chica, 1 juv at the Guan center, 1 near Santa Rosa and 2 near Bosque Pomac

Black-chested Buzzard-Eagle *Geranoaetus melanoleucus*

Singles in the highlands and 1 ad at Quebrada Limon

Roadside Hawk *Buteo magnirostris*

Singles

Broad-winged Hawk *Buteo platypterus*

1 seen at Abra Patricia

White-tailed Hawk *Buteo albicaudatus*

2 ad pale and dark morph seen 2 kms north of Chamaya
First record for northern Peru! Has recently been found at Satipo in central Peru and previously only known from Pamps del Heath in the far southeast.

Red-backed (Variable) Hawk *Buteo polyosoma*

2 juv at Limon de Porcuya and 2 at Bosque Pomac

Puna (Variable) Hawk *Buteo poecilochrous*

Singles in the highlands between Cajamarca and Leimebamba

Zone-tailed Hawk *Buteo albonotatus*

1 seen near Olmos and 2 at Bosque Pomac

Black-and-white Hawk-Eagle *Spizastur melanoleucus*

1 seen at Abra Patricia

Black Hawk-Eagle *Spizaetus tyrannus*

1 seen at Abra Patricia

Mountain Caracara *Phalcoboenus megalopterus*

Fairly common in the highlands between Cajamarca and Leimebamba

Crested Caracara *Caracara cheriway*

3 seen in the northwest

American Kestrel *Falco sparverius*

Singles seen most days except at Abra Patricia.

Aplomado Falcon *Falco femoralis*

3 seen between Cajamarca and Celendin and 1 at Abra Barro Negro

Adult pale morph White-tailed Hawk

Adult dark morph White-tailed Hawk

Peregrine Falcon *Falco peregrinus*

2 seen at Hacienda Limon, 3 seen near Bagua Chica, 1 seen at Limon de Porcuya, 1 seen at Santa Rosa
At least one adult at Hacienda Limon could be identified as the local race *cassini*.

Speckled Chachalaca *Ortalis guttata*

2 seen at Afluentes

Andean Guan *Penelope montagnii*

2 at Abra Barro negro

***White-winged Guan** *Penelope albipennis*

10 seen at Quebrada Limon and several 'semi-wild' at Chaparrí

Sickle-winged Guan *Chamaepetes goudotii*

2 seen at Abra Patricia

Rufous-sided Crake *Laterallus melanophaius*

1 heard and seen briefly near Bagua Chica

Gray-breasted Crake *Laterallus exilis*

1 heard north of Jaen

Spotted Rail *Pardirallus maculatus*

2 ad and 1 juv seen near Bagua Chica

Plumbeous Rail *Pardirallus sanguinolentus*

2 seen along río Utcubamba and 1 seen and 1 heard at lake Pomacochas

Purple Gallinule *Porphyryla martinica*

5 seen near Bagua Chica

Common Moorhen *Gallinula chloropus*

Singles in wetlands/rice paddies

American Oystercatcher *Haematopus palliatus*

10 seen at Santa Rosa

Black-necked Stilt *Himantopus mexicanus*

1 seen near Bagua Chica and 1 seen at Tinajones reservoir

Peruvian Thick-knee *Burhinus superciliaris*

15 seen on the way to and from Quebrada Limon, 1 seen at Bosque Pomac and heard at Chaparrí

Pied Lapwing *Vanellus cayanus*

1 seen near Bagua Chica

Andean Lapwing *Vanellus resplendens*

Singles in the highlands between Cajamarca and Leimebamba

Gray Plover *Pluvialis squatarola*

20 at Santa Rosa

Semi-palmated Plover *Charadrius semipalmatus*

1 seen near Bagua Chica

Killdeer *Charadrius vociferus*

1 seen at Santa Rosa

Collared Plover *Charadrius collaris*

1 seen along the Utcubamba river near Naranjitos

Puna Snipe *Gallinago andina*

2 seen at lake Pomacochas

Unidentified Snipe *Gallinago sp*

2 seen in rice paddies near Naranjitos

Probably South American Snipe but Wilson's can't be ruled out.

Whimbrel *Numenius phaeopus*

5 seen at Santa Rosa

Greater Yellowlegs *Tringa melanoleuca*

5 seen at lake Pomacochas

Lesser Yellowlegs *Tringa flavipes*

3 seen at Santa Rosa

Spotted Sandpiper *Actitis macularia*

Singles near water throughout

Ruddy Turnstone *Arenaria interpres*

5 seen at Santa Rosa

Sanderling *Calidris alba*

30 seen at Santa Rosa

Pectoral Sandpiper *Calidris melanotos*

1 seen at lake Pomacochas

Wilson's Phalarope *Phalaropus tricolor*

2 seen at Santa Rosa

Unidentified Jaeger *Stercorarius sp*

1 seen at Santa Rosa

Kelp Gull *Larus dominicanus*

Common at Santa Rosa

Gray-headed Gull *Larus cirrocephalus*

Common at Tinajones reservoir and Santa Rosa

Andean Gull *Larus serranus*

4 seen between Cajamarca and Celendin and 2 seen at Abra Barro negro

Royal Tern *Sterna maxima*

Common at Santa Rosa

Rock Pigeon *Columba livia*

Seen in cities

Scaled Pigeon *Columba speciosa*

2 seen at Aguas Verdes

Band-tailed Pigeon *Columba fasciata*

5 seen at Abra Barro Negro and fairly common at the higher parts of Abra Patricia

Peruvian Pigeon *Columba oenops*

4 seen at Balsas and 3 at Hacienda Limon 27.10, 2 seen at Balsas and 1 along the Utcubamba river

Plumbeous Pigeon *Columba plumbea*

Singles seen and heard at Aguas Verdes and Afluentes

Ruddy Pigeon *Columba subvinacea*

1 seen and 1 heard at Abra Patricia

Eared Dove *Zenaida auriculata*

Common in drier and higher parts of the trip.

West Peruvian Dove *Zenaida meloda*

Common in the west.

Ecuadorian Ground-Dove *Columbina buckleyi*

2 seen at Hacienda Limon, 1 seen at Chamaya and 1 seen at Tamborapa

Croaking Ground-Dove *Columbina cruziana*

Common in the west, at Hacienda Limon and around Bagua Chica

Blue Ground-Dove *Claravis pretiosa*

Singles seen and heard around Bagua Chica and Jaen

Bare-faced Ground-Dove *Metriopelia ceciliae*

25 seen above Balsas and 5 between Chamaya and Abra Porcuya

White-tipped Dove *Leptotila verreauxi*

Singles seen most days, common in the Utcubamba valley and around Jaen

White-throated Quail-Dove *Geotrygon frenata*

1 seen at Abra Patricia

Mitred Parakeet *Aratinga mitrata*

Common between Leimebamba and Pedro Ruiz, also seen at Pomacochas

Red-masked Parakeet *Aratinga erythrogenys*

28 seen at the Guan center, 50 seen at Quebrada Limon, 25 seen at Chaparrí

Scarlet-fronted Parakeet *Aratinga wagleri*

1 seen above Balsas, 10+40 seen around Bagua Chica

White-eyed Parakeet *Aratinga leucophthalmus*

Small numbers seen at Aguas Verdes-Afluentes

Golden-plumed Parakeet *Leptosittaca branickii*

7 seen at Abra Barro Negro

Andean Parakeet *Bolborhynchus orbynesius*

6 seen well above Leimebamba

May be slightly out-of-range

Pacific Parrotlet *Forpus coelestis*

Common in the west and around Bagua Chica

***Yellow-faced Parrotlet** *Forpus xanthops*

2+2+15 seen between Hacienda Limon and Balsas

Blue-headed Parrot *Pionus menstruus*

Singles seen at Aguas Verdes

Red-billed Parrot *Pionus sordidus*

10 seen at Afluentes

White-capped Parrot *Pionus seniloides*

2 seen at Abra Barro negro

Scaly-naped Parrot *Amazona mercenaria*

2+4 seen at the higher parts of Abra Patricia

Squirrel Cuckoo *Piaya cayana*

Singles seen at Hacienda Limon and at Aguas Verdes

Groove-billed Ani *Crotophaga sulcirostris*

Common in the west and around Bagua Chica

Striped Cuckoo *Tapera naevia*

Singles seen or heard most days in dry habitat

Peruvian Screech-Owl *Megascops roboratus*

1 seen at a nest-hole at Quebrada Limon

White-throated Screech-Owl *Megascops albogularis*

1 seen and heard at Abra Patricia

***Koepcke's Screech-Owl** *Megascops koepckeae*

2 seen at daytime roost at Estancia El Chillo

Rufous-banded Owl *Ciccaba albitarsis*

1 heard at Abra Patricia

Yungas Pygmy-owl *Glaucidium bolivianum*

1 heard and 1 seen at Abra Barro Negro

Peruvian Pygmy-Owl *Glaucidium peruanum*

Singles seen or heard most days in the dry Marañon and in the west

***Long-whiskered Owlet** *Xenoglaux loweryi*

1 heard at Abra Patricia

Short-eared Owl *Asio flammeus*

2 seen at Chaparrí

First record for Chaparrí lodge!

Burrowing Owl *Athene cunicularia*

1 seen at Olmos, 2 seen at the Guan center and about 10 at Bosque Pomac and the road to Chaparrí

Andean Potoo *Nyctibius maculosus*

1 seen at Abra Patricia

Lesser Nighthawk *Chordeiles acutipennis*

Fairly common in the west

Scrub (Anthonys) Nightjar *Caprimulgus anthonyi*

5 seen and heard at Chaparrí

Chestnut-collared Swift *Streptoprocne rutila*

10 seen below Hacienda Limon, also seen near Pomacochas

White-collared Swift *Streptoprocne zonaris*

Several groups seen between Cajamarca and Leimebamba and also at Abra Patricia

Tumbes Swift *Chaetura ocybetes*

15 seen at Quebrada Limon. Sometimes considered conspecific with Short-tailed Swift *Chaetura brachyura*.

White-tipped Swift *Aeronautes montivagus*

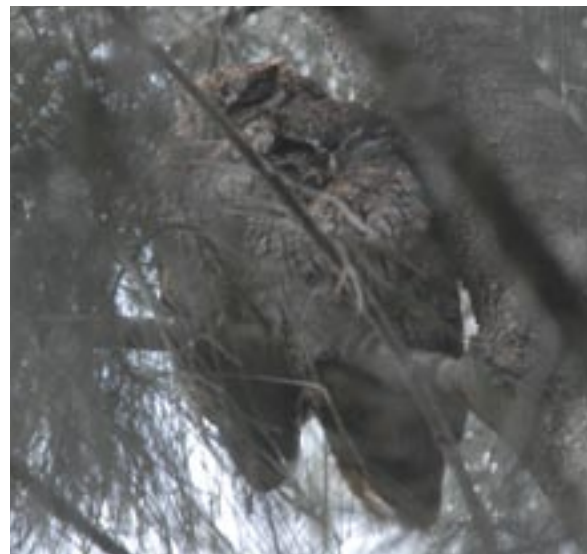

Singles seen at Abra Patricia

Andean Swift *Aeronautes andecolus*

20 seen at Sangal valley, Cajamarca

Green Hermit *Phaethornis guy*

2 seen at Afluentes

Koepcke's Screech-Owls

Gray-chinned Hermit *Phaethornis griseogularis*

1 seen and more heard at Aguas Verdes (ssp *griseogularis* or *zonura*), 2-3 seen at Limon de Porcuya (ssp. *porcullae*)

Green Violetear *Colibri thalassinus*

1 seen at the feeders at Pomacochas

Sparkling Violetear *Colibri coruscans*

Several at the feeders at Pomacochas and 1 at Limon de Porcuya

Violet-headed Hummingbird *Klais guimeti*

2 seen at Afluentes

Wire-crested Thorntail *Popelairia popelairii*

1 male seen at Aguas Verdes and 1 seen at Afluentes

Fork-tailed Woodnymph *Thalurania furcata*

1 seen at Afluentes

Tumbes Hummingbird *Leucippus baeri*

1 seen at Chaparrí

***Spot-throated Hummingbird** *Leucippus taczanowskii*

Fairly common in the Marañon and Utcubamba valleys

White-bellied Hummingbird *Leucippus chionogaster*

5 seen at the feeders at Pomacochas and 3 seen at the hotel in Pomacochas

Amazilia Hummingbird *Amazilia amazilia*

Common in the dry west

Andean Emerald *Agyrtria franciae*

2 seen at Hacienda Limon, 2 at the feeders at Pomacochas and 1 at Abra Patricia

Speckled Hummingbird *Adelomyia melanogenys*

Singles in the Abra Patricia area

Violet-fronted Brilliant *Heliodoxa leadbaeteri*

1 seen at Aguas Verdes

Shining Sunbeam *Aglaeactis cupripennis*

Singles daily in the highlands between Cajamarca and Leimebamba

Green-headed Hillstar *Oreotrochilus stolzmanni*

1 female seen in the Sangal valley, Cajamarca.

Sometimes considered conspecific with Andean Hillstar *Oreotrochilus estrella*

Mountain Velvetbreast *Lafresnaya lafresnayi*

1 female seen above Leimebamba

Bronzy Inca *Coeligena coeligena*

1-2 seen at Abra Patricia

Collared Inca *Coeligena torquata*

5 seen at Abra Patricia

Violet-throated Starfrontlet *Coeligena violifer*

1 seen at Abra Patricia

Rainbow Starfrontlet *Coeligena iris*

Singles seen daily between Cajamarca and Leimebamba

Sword-billed Hummingbird *Ensifera ensifera*

1-2 seen at Cruz Conga

Great Sapphirewing *Pterophanes cyanopterus*

1 male seen at Abra Barro negro

Giant Hummingbird *Patagona gigas*

1 seen in the Sangal valley and 1 seen between Cajamarca and San Marcos

Amethyst-throated Sunangel *Heliangulus amethysticollis*

2 seen below Abra Barro Negro

Purple-throated Sunangel *Heliangelus viola*

1 female seen above Leimebamba and 1 male seen at Pomacochas

***Royal Sunangel** *Heliangelus regalis*

1 male and 1 female seen at Abra Patricia

Coppery-naped Puffleg *Eriocnemis sapphiropygia*

1 seen at Abra Barro Negro (race *catharina*).

Sometimes considered conspecific with Sapphire-vented Puffleg *Eriocnemis luciani*.

Emerald-bellied Puffleg *Eriocnemis alinae*

1 seen at Pomacochas and up to 5 seen at the feeders at Abra Patricia

Green-tailed Trainbearer *Lesbia nuna*

1 seen at La Encañada, 1 seen at ABra Barro Negro and 3 at the hotel in Pomacochas

Tyrian Metaltail *Metallura tyrianthina*

Fairly common between Cajamarca and Leimebamba

***Coppery Metaltail** *Matellura theresiae*

5 seen at Abra Barro negro

***Black Metaltail** *Metallura phoebe*

1 seen at Sangal valley and 2 seen between Cajamarca and Celendin

***Gray-bellied Comet** *Taphrolesbia griseiventris*

1 male at Sangal valley

Long-tailed Sylph *Agelaiocercus kingi*

Up to 3 seen daily at Abra Patricia

***Marvellous Spatuletail** *Loddigesia mirabilis*

2 females seen at the new ECOAN reserve, 2 males and 2 females seen above Pomacochas

Peruvian Sheartail *Thaumastura cora*

1 female seen at Limon de Porcuya

Purple-collared Woodstar *Myrtis fanny*

4+2 seen at Limon de Porcuya, 2 seen at Chaparrí, 2+1 at Hacienda Limon and 1 male at the ECOAN reserve

Short-tailed Woodstar *Myrmia micrura*

1 female seen at the Guan center and 1 seen at Chaparrí

Little Woodstar *Chaetocercus bombus*

1 male seen at Estancia El Chillo

Golden-headed Quetzal *Pharomachrus auriceps*

7 seen above Leimebamba

Ringed Kingfisher *Ceryle torquatus*

1 seen between Chamaya and Abra Porculla, 5 seen at Tinajones reservoir

Amazon Kingfisher *Chloroceryle amazona*

1 seen along the Utcubamba river and 1 seen north of Bagua Chica

Green Kingfisher *Chloroceryle americana*

1 seen north of Bagua Chica and 1 seen at Tinajones reservoir

Lanceolated Monklet *Micromonacha lanceolata*

1 seen at Aguas Verdes

Gilded Barbet *Capito auratus*

1 pair seen at Aguas Verdes

Versicolored Barbet *Eubucco versicolor*

2 seen at Afluentes (ssp *steerii*)

Andean Toucanet *Aulacorhynchus albavitta*

1 heard at Pomacochas, 1+1 seen at Abra Patricia

Formerly part of the Emerald Toucanet *Aulacorhynchus prasinus* complex.

Many-banded Aracari *Pteroglossus pluricinctus*

1 seen at Aguas Verdes

Gray-breasted Mountain-Toucan *Andigena hypoglauca*

1 seen above Leimebamba

Black-mandibled Toucan *Ramphastos ambiguus*

1 seen at Afluentes

Lafresnaye's Piculet *Picumnus lafresnayi*

1 seen at Aguas Verdes

Ecuadorian Piculet *Picumnus sclateri*

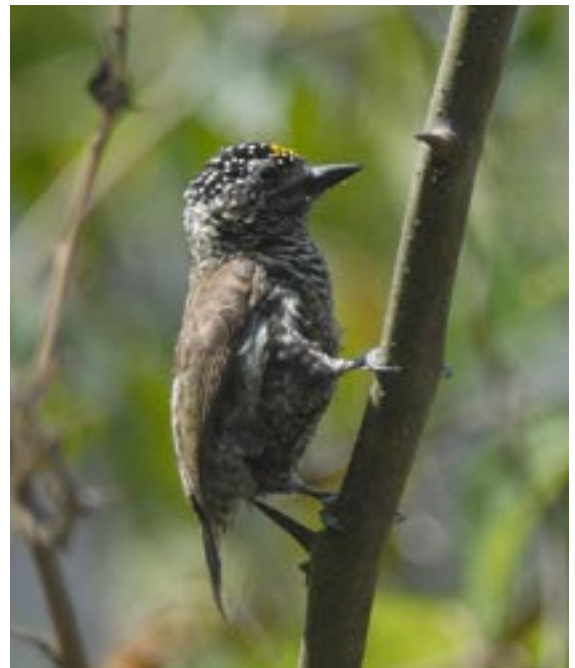

1 seen at Quebrada Limon

***Speckle-chested Piculet** *Picumnus steindachneri*

1 seen along the Utcubamba river near Chachapoyas and 1 seen at Aguas Verdes

Scarlet-backed Woodpecker *Veniliornis callonotus*

Fairly common in the dry Tumbesian zone, 2 seen at Tamborapa

Male Ecuadorian Piculet

Smoky-brown Woodpecker *Veniliornis fumigatus*

1 seen at Sangal Valley, 1 seen at La Encañada, 1 seen at Abra Patricia and 1 at Afluentes

Little Woodpecker *Veniliornis passerinus*

1+1 seen at Afluentes and 1 seen at Aguas Verdes

Red-stained Woodpecker *Veniliornis affinis*

2 seen at Aguas Verdes

Golden-olive Woodpecker *Piculus rubiginosus*

1 seen at Aguas Verdes, 1 seen at the Guan Centre near Olmos, 1 seen at Bosque Pomac

Crimson-mantled Woodpecker *Piculus rivolii*

1 heard below Abra Barro negro, 1+1 at Abra Patricia

***Black-necked Woodpecker** *Colaptes atricollis*

2+1 between Hacienda Limon and Balsas

Andean Flicker *Colaptes rupicola*

10 between Cajamarca and Celendin

Lineated Woodpecker *Dryocopus lineatus*

1 heard at Quebrada Limon and 1 seen at Bosque Pomac

Crimson-bellied Woodpecker *Campephilus haematogaster*

1 seen at Abra Patricia

Guayaquil Woodpecker *Campephilus gayaquilensis*

1 female seen at Quebrada Limon

Coastal Miner *Geositta peruviana*

1 seen at Santa Rosa and 1 at Bosque Pomac

Slender-billed Miner *Geositta tenuirostris*

2 seen between Cajamarca and Celendin

***Striated Earthcreeper** *Upucerthia serrana*

3 seen between Cajamarca and Celendin

Bar-winged Cinclodes *Cinclodes fuscus*

5 seen between Cajamarca and Celendin

White-winged Cinclodes *Cinclodes atacamensis*

10 seen in the Sangal valley

Pacific Hornero *Furnarius cinnamomeus*

Common in the dry west and around Bagua Chica

***Rusty-crowned Tit-Spintail** *Leptasthenura pileata*

1 seen at Sangal valley, 1 seen between Cajamarca and Celendin (ssp *cajabambae*)

Wren-like Rushbird *Phleocryptes melanops*

3 seen at Santa Rosa

Rufous Spintail *Synallaxis unirufa*

1 heard at Abra Barro negro, 1 seen at Abra Patricia

Azara's Spintail *Synallaxis azarae*

Singles seen or heard most days in the highlands

Dark-breasted Spintail *Synallaxis albigularis*

1 heard at Afluentes

Marañon Spintail *Synallaxis maranonica*

1 pair seen between Pedro Ruiz and Bagua, 3 pairs seen or heard near Tamborapa

Necklaced Spintail *Synallaxis stictothorax*

Fairly common around Olmos-Bosque Pomac

***Chinchi Spintail** *Synallaxis chinchipensis*

3 seen at Tamborapa

Often considered conspecific with previous species.

***Great Spintail** *Siptornopsis hypochondriacus*

1 pair seen near San Marcos

***Baron's Spintail** *Cranioleuca baroni*

5 seen between Cajamarca and Celendin and 2 at Hacienda Limon

Line-cheeked Spintail *Cranioleuca antisimensis*

2 seen in the Utcubamba valley including nestbuilding, 3 at Limon de Porcuya

Sometimes considered conspecific with previous species.

Ash-browed Spinetail *Cranioleuca curtata*

1 seen at Aguas Verdes

White-chinned Thistletail *Schizoeaca fuliginosa*

1 seen at Abra Barro Negro

The *peruviana* ssp probably deserves species status.

Streak-throated Canastero *Asthenes humilis*

5 seen between Cajamarca and Celendin

Streak-backed Canastero *Asthenes wyatti*

1 pair seen at La Encañada

Many-striped Canastero *Asthenes flammulata*

1 between Cajamarca and Celendin

Rufous-fronted Thornbird *Phacellodomus rufifrons peruvianus*

Common along the Utcubamba river, around Bagua Chica and Jaen

***Chestnut-backed Thornbird** *Phacellodomus dorsalis*

About 10 seen at Hacienda Limon including nestbuilding

Equatorial Graytail *Xenerpestes singularis*

1 seen at Afluentes

Spotted Barbtail *Premnoplex brunnescens*

1 seen at Abra Patricia

Pearled Treerunner *Margarornis squamiger*

5 seen at Abra Patricia

Streaked Xenops *Xenops rutilans*

1+4 seen at Aguas Verdes-Afluentes

Montane Foliage-Gleaner *Anabacerthia striaticollis*

1 seen at Aguas Verdes

Streaked Tuftedcheek *Pseudocolaptes boissonneautii*

1+1 seen below Abra Barro Negro, 1+1 seen at Abra Patricia

Buff-browed Foliage-Gleaner *Syndactyla rufosuperciliata*

1 seen at Abra Patricia

Rufous-necked Foliage-gleaner *Syndactyla ruficollis*

1+1 seen at Limon de Porcuya

Buff-fronted Foliage-Gleaner *Philydor rufus*

5 seen at Aguas Verdes including a copulating pair

Henna-hooded Foliage-gleaner *Hylocryptus erythrocephalus*

2+2 seen at Limon de Porcuya

Olivaceous Woodcreeper *Sittasomus griseicapillus*

1 seen at Afluentes

Wedge-billed Woodcreeper *Glyphorhynchus spirurus*

1 seen at Aguas Verdes

Strong-billed Woodcreeper *Xiphocolaptes promeropirhynchus*

2 seen at Abra Patricia

Olive-backed Woodcreeper *Xiphorhynchus triangularis*

2 seen at Afluentes

Streak-headed Woodcreeper *Lepidocolaptes souleyetii*

Common in the west

Montane Woodcreeper *Lepidocolaptes lacrymiger*

4 seen above Leimebamba

Collared Antshrike *Sakesphorus bernardi*

Fairly common in the dry Tumbesian zone, 1 seen near Bagua Chica race *shumbae*.

Chapman's Antshrike *Thamnophilus zarumae*

5 seen at Limon de Porcuya

Lined Antshrike *Thamnophilus tenuipunctatus*

1 pair seen at Afluentes

Maranon Slaty-Antshrike *Thamnophilus leucogaster*

2 seen and 2 heard at Tamborapa

Sometimes considered conspecific with Northern Slaty-Antshrike *Thamnophilus punctatus*.

Variable Antshrike *Thamnophilus caerulescens*

1 pair seen at Abra Patricia

Rufous-capped Antshrike *Thamnophilus ruficapillus*

1 seen at Pomacochas ssp *jaczewskii*.

Yellow-breasted Antwren *Herpsilochmus axillaris*

4 seen at Aguas Verdes and Afluentes

Long-tailed Antbird *Drymophila caudata*

2 seen at Abra Patricia

Blackish Antbird *Cercomacra nigrescens*

1 heard at Afluentes ssp *aequatorialis*

White-backed Fire-Eye *Pyriglena leuconota*

2 heard at Aguas Verdes

White-browed Antbird *Myrmoborus leucophrys*

1 seen at Aguas Verdes

Barred Antthrush *Chamaeza mollissima*

1 heard at Abra Patricia

Chestnut-crowned Antpitta *Grallaria ruficapilla*

Singles heard and seen between Cajamarca nad Leimebamba and along the Utcubamba river and at Limon de Porcuya

Stripe-headed Antpitta *Grallaria andicola*

1 seen between Cajamarca and Celendin

***Rusty-tinged Antpitta** *Grallaria przewalskii*

1 heard at Abra Patricia

Rufous Antpitta *Grallaria rufula*

3 heard at Cruz Conga. The race *cajamarcae* certainly merits for species status.

***Chestnut Antpitta** *Grallaria blakei*

1 seen briefly at Abra Patricia

Elegant Crescentchest *Melanopareia elegans*

2 heard at Quebrada Limon, 5+5 seen at Limon de Porcuya 1 heard at Chaparrí

Maranon Crescentchest *Melanopareia maranonica*

1 seen at Tamborapa

Blackish Tapaculo *Scytalopus latrans intermedius*

1 seen at Abra Barro Negro

Trilling Tapaculo *Scytalopus parvirostris*

2 heard and 1 seen at Abra Patricia

***Rufous-vented Tapaculo** *Scytalopus femoralis*

Heard daily at the higher parts of Abra Patricia. 1 seen

White-crowned Tapaculo *Scytalopus atratus*

Heard at Afluentes

***Peruvian Plantcutter** *Phytotoma raimondii*

2 seen at Bosque Pomac

Red-crested Cotinga *Ampelion rubrocristata*

A few seen daily between Cajamarca and Celendin

Green-and-black Fruiteater *Pipreola riefferii*

2+1 seen at Abra Patricia

Red-ruffed Fruitcrow *Pyroderus scutatus*

2 seen at Abra Patricia

Amazonian Umbrellabird *Cephalopterus ornatus*

1 seen at Aguas Verdes

Andean Cock-of-the-rock *Rupicola peruviana*

Several seen at Afluentes

Jet Manakin *Chloropipo unicolor*

1 male seen at Abra Patricia

Wing-barred Piprites *Piprites chloris*

1 heard at Afluentes

Tawny-rumped Tyrannulet *Phyllomyias uropygialis*

1 seen above Celendin

Male Peruvian Plantcutter

Tumbesian Tyrannulet *Phaeomyias tumbezana*

Fairly common in the Tumbesian zone (ssp *tumbezana*) with singles in the Marañon valley (ssp *maranonica*).
Sometimes considered conspecific with Mouse-coloured Tyrannulet *Phaeomyias murina*

Pacific Elaenia *Myiopagis subplacens*

2 seen near Olmos and 2 seen at Quebrada Limon

Gray-and-white Tyrannulet *Pseudelaenia leucospodia*

Fairly common at Olmos, Quebrada Limon and Chaparrí

Yellow-bellied Elaenia *Elaenia flavogaster*

2 seen along the Utcubamba river, 1 seen at Tamborapa

White-crested Elaenia *Elaenia albiceps*

Singles in the highlands between Cajamarca and Leimebamba

Mottle-backed Elaenia *Elaenia gigas*

1 seen at Afluentes

Sierran Elaenia *Elaenia pallatangae*

Singles seen in the highlands between Leimebamba and Abra Patricia

Torrent Tyrannulet *Serpophaga cinerea*

2 seen at Sangal valley, 2 seen at La Encañada, 3 seen along the Utcubamba river and 1 seen at Abra Patricia

Southern Beardless-Tyrannulet *Camptostoma obsoletum*

Common in the Tumbesian zone and the dry Marañon drainage.

Streak-necked Flycatcher *Mionectes striaticollis*

Singles seen at Abra Patricia

Olive-striped Flycatcher *Mionectes olivaceus*

2 seen at Afluentes and 7 at Aguas Verdes

***Inca Flycatcher** *Leptopogon taczanowskii*

1+1 seen at Abra Patricia

Slaty-capped Flycatcher *Leptopogon superciliaris*

Common at Aguas Verdes and Afluentes

Rufous-headed Pygmy-Tyrant *Pseudotriccus ruficeps*

Singles seen and several heard at Abra Patricia

Marble-faced Bristle-Tyrant *Pogonotriccus ophthalmicus*

1 seen at Afluentes

Spectacled Bristle-Tyrant *Pogonotriccus orbitalis*

2 seen at Aguas Verdes

Ecuadorian Tyrannulet *Phylloscartes gualaquizae*

7 seen at Aguas Verdes

Golden-faced Tyrannulet *Zimmerius chlorops*

Common in the whole Abra Patricia area

White-throated Tyrannulet *Mecocerculus leucophrys*

2 seen at Abra Barro Negro

Sulphur-bellied Tyrannulet *Mecocerculus minor*

1 seen at Abra Patricia

White-banded Tyrannulet *Mecocerculus stictopterus*

2 seen at Abra Barro Negro and 3 seen above Leimebamba

Black-crested Tit-Tyrant *Anairetes nigrocristatus*

2 seen in the Sangal valley, 1 seen at Cruz Conga and 2 seen above hacienda Limon

Yellow-billed Tit-Tyrant *Anairetes flavirostris*

2 seen above hacienda Limon

Tufted Tit-Tyrant *Anairetes parulus*

2 seen at Cruz Conga, 2 seen above Leimebamba

Many-coloured Rush-Tyrant *Tachuris rubrigastra*

1 seen at Santa Rosa

Subtropical Doradito *Pseudocolopteryx acutipennis*

1 seen at lake Pomacochas

Tawny-crowned Pygmy-Tyrant *Euscarthmus meloryphus*

Common in the dry west, singles at Hacienda Limon, around Jaen and Bagua Chica

Scale-crested Pygmy-Tyrant *Lophotriccus pileatus*

Singles seen and heard at Afluentes

***Lulu´s Tody-Tyrant** *Poecilatriccus luluae*

2 seen at Abra Patricia

Has been renamed to Johnson's Tody-Flycatcher

Black-throated Tody-Tyrant *Hemitriccus granadensis*

1 seen below Abra Barro negro and 2 seen at Abra Patricia

Common Tody-Flycatcher *Todirostrum cinereum*

Singles seen most days in the dry Marañon valley and the west

Fulvous-breasted Flatbill *Rhynchocyclus fulvipectus*

1 seen at Aguas Verdes

Ornate Flycatcher *Myiopicus ornatus*

2 seen at Afluentes

Flavescent Flycatcher *Myiophobus flavicans*

1 seen at Abra Patricia

Bran-colored Flycatcher *Myiophobus fasciatus*

1 seen at Hacienda Limon, 1 seen above Balsas, 1 seen at El Chillo, 2 seen at the Guan center

Olive-chested Flycatcher *Myiophobus cryptoxanthus*

1 seen at Afluentes

Cinnamon Flycatcher *Pyrrhomyias cinnamomea*

Common in the higher Abra Patricia area and above Leimebamba

Cliff Flycatcher *Hirundinea ferruginea*

2 seen in the higher Abra Patricia area

Smoke-colored Pewee *Contopus fumigatus*

2 seen above Leimebamba and 1 at Abra Patricia

Western Wood-Pewee *Contopus sordidulus*

Singles seen at Afluentes

Eastern Wood-Pewee *Contopus virens*

1 seen at lake Pomacochas

Tumbes Pewee *Contopus punensis*

1 seen at Quebrada Limon

Alder Flycatcher *Empidonax alnorum*

1 seen along the Utcubamba river near Chachapoyas

Black Phoebe *Sayornis nigricans*

Singles near water in the mountains

Vermilion Flycatcher *Pyrocephalus rubinus*

Common in the west and around Bagua Chica

Jelski's Chat-Tyrant *Ochthoeca jelskii*

1 seen at La Encañada and 1 seen at Cruz Conga

Maroon-chested Chat-Tyrant *Ochthoeca thoracica*

1 seen and 3 heard above Leimebamba and 1 seen at Abra Patricia

Sometimes considered conspecific with Slaty-backed Chat-Tyrant *Ochthoeca cinnamomeiventris*.

***Piura Chat-Tyrant** *Ochthoeca piurae*

1 seen at Limon de Porcuya

Brown-backed Chat-Tyrant *Ochthoeca fumicolor*

1 seen between Cajamarca and Celandin and 1 seen at Abra Barro Negro

White-browed Chat-Tyrant *Ochthoeca leucophrys*

3 at Río Chonta, 10 between Cajamarca and Celandin and 2 above Celandin

***Tumbes Tyrant** *Tumbezia salvini*

1 seen at Quebrada Limon and 1 seen at Chaparrí

Streak-throated Bush-Tyrant *Myiotheretes striaticollis*

2 seen at Sangal valley, 2 seen between Cajamarca and Celandin and 1 above Leimebamba

Black-billed Shrike-Tyrant *Agriornis montana*

2 seen between Cajamarca and Celandin

White-tailed Shrike-Tyrant *Agriornis andicola*

1 seen between Cajamarca and Celandin. Several unidentified Shrike-Tyrants were seen along this stretch too.

Rufous-webbed Tyrant *Polioptila rufipennis*

5 seen between Cajamarca and Celandin

Rufous-webbed Tyrant

Rufous-naped Ground-Tyrant *Muscisaxicola rufivertex*

2 seen in the Sangal valley and 2 seen above Celendin

Short-tailed Field-Tyrant *Muscigralla brevicauda*

1 seen at Olmos and 1 seen at Quebrada Limon

Rufous-tailed Tyrant *Knipolegus poecilurus*

3 seen at Afluentes

White-winged Black-Tyrant *Knipolegus aterrimus*

1 pair seen above hacienda Limon

Long-tailed Tyrant *Colonia colonus*

2 seen at Afluentes

***Rufous Flycatcher** *Myiarchus semirufus*

1 seen at the Guan center and 1 seen at Bosque Pomac

Dusky-capped Flycatcher *Myiarchus tuberculifer*

1 seen above Balsas, 2 seen above Leimebamba and 1 seen at Limon de Porcuya

Pale-edged Flycatcher *Myiarchus cephalotes*

1 seen at Pomacochas, 2 seen at Abra Patricia

Sooty-crowned Flycatcher *Myiarchus phaeocephalus*

1 seen at Tamborapa and 2 seen at Quebrada Limon

Brown-crested Flycatcher *Myiarchus tyrannulus*

2 seen near Bagua Chica and 2 seen at Chamaya

Great Kiskadee *Pitangus sulphuratus*

Fairly common around Bagua Chica and along the Utcubamba river

Boat-billed Flycatcher *Megarynchus pitangua*

1 heard at Aguas Verdes

Social Flycatcher *Myiozetetes similis*

Singles seen along the Utcubamba river, around Bagua Chica and Aguas Verdes

Lemon-browed Flycatcher *Conopias cinchoneti*

2 seen at Aguas Verdes

Baird's Flycatcher *Myiodynastes bairdii*

Fairly common in the dry west.

Streaked Flycatcher *Myiodynastes maculatus*

1 seen at Afluentes

Snowy-throated Kingbird *Tyrannopsis niveigularis*

2 seen at the Guan center

Tropical Kingbird *Tyrannopsis melancholicus*

Seen most days except in the dry west

Yellow-cheeked Becard *Pachyramphus xanthogenys*

1 seen at Tamborapa

Barred Becard *Pachyramphus versicolor*

3 seen above Liemebamba and 1 heard at Abra Patricia

Black-and-white Becard *Pachyramphus albogriseus*

2 seen at Abra Patricia, 1 seen at Afluentes and 1 seen at Tamborapa

Masked Tityra *Tityra semifasciata*

1 seen at Aguas Verdes

Gray-breasted Martin *Progne chalybea*

1 seen at the hotel in Pomacochas, singles around Bagua and Jaen and 2 seen at Bosque Pomac

Tumbes Swallow *Tachycineta stolzmanni*

3-4 seen at Bosque Pomac

White-winged Swallow *Tachycineta albiventer*

5 seen along the Utcubamba river near Naranjitos

Blue-and-white Swallow *Pygochelidon cyanoleuca*

Common almost everywhere.

Brown-bellied Swallow *Notiochelidon murina*

10 seen in the Sangal valley and 25 at Abra Barro Negro

Southern Rough-winged Swallow *Stelgidopteryx ruficollis*

Singles seen around Bagua Chica

Bank Swallow *Riparia riparia*

1 seen at lake Pomacochas, 1 seen near Bagua Chica, 2 seen at Santa Rosa

Chestnut-collared Swallow *Petrochelidon rufocollaris*

50 seen at the Guan center, singles at Santa Rosa and 10 at Bosque Pomac

Barn Swallow *Hirundo rustica*

Common near Bagua Chica, 5 seen at Bosque Pomac

Paramo Pipit *Anthus bogotensis*

2 seen between Cajamarca and Celendin

Yellowish Pipit *Anthus lutescens*

1-2 seen at Santa Rosa

White-capped Dipper *Cinclus leucocephalus*

3 seen above Leimebamba

Black-capped Donacobius *Donacobius atricapillus*

1 seen at Aguas Verdes

Thrush-like Wren *Campylorhynchus turdinus*

Heard at Aguas Verdes and Afluentes

Fasciated Wren *Campylorhynchus fasciatus*

Common in the dry west and the Marañon drainage

Gray-mantled Wren *Odontorchilus branickii*

1 seen at Afluentes

Plain-tailed Wren *Thryothorus euophrys*

1 seen at Abra Patricia

Speckled-breasted Wren *Thryothorus sclateri*

1 seen between Pedro Ruiz and Bagua Chica, 1 heard at Tamborapa (race *sclateri*). 1 seen at the Guan center, 1 seen at Quebrada Limon and 1 seen at Bosque Pomac (race *paucimaculatus*)

Superciliated Wren *Thryothorus superciliaris*

Common in the dry Tumbesian zone

Southern House Wren *Troglodytes musculus*

Singles seen most days.

Mountain Wren *Troglodytes solstitialis*

2 seen above Leimebamba, 2 seen at Abra Patricia

Sedge Wren *Cistothorus platensis*

1 heard at Abra Barro Negro

Gray-breasted Wood-Wren *Henicorhina leucophrys*

1 seen above Leimebamba. Common in the Abra Patricia area.

Bar-winged Wood-Wren *Henicorhina leucoptera*

2 seen and 2 heard at Abra Patricia

Chestnut-breasted Wren *Cyphohinus thoracicus*

1+1 seen at Abra Patricia

Long-tailed Mockingbird *Mimus longicaudatus*

Common in the dry west and Marañon drainage.

Andean Solitaire *Myadestes ralloides*

Fairly common heard and singles seen at Abra Patricia and above Leimebamba

Slaty-backed Nightingale-Thrush *Catharus fuscater*

1 heard above Leimebamba

Swainson's Thrush *Catharus ustulatus*

1 seen in the Sangal Valley, 1 seen along the Utcubamba river, 15 seen at Aguas Verdes-Afluentes, 1 seen at Tamborapa, 2 seen at Limon de Porcuya

Chiguanco Thrush *Turdus chiguanco*

Fairly common in the Cajamarca area and 1 seen at Limon de Porcuya

Great Thrush *Turdus fuscater*

Fairly common in the highlands.

Glossy-black Thrush *Turdus serranus*

1 seen at above Leimebamba and 1 seen at Abra Patricia

Andean Slaty-Thrush *Turdus nigriceps*

1 male seen at Afluentes and 1 male seen at Limon de Porcuya

Plumbeous-backed Thrush *Turdus reevei*

1+3 seen at Limon de Porcuya, 1 seen at Quebrada Limon

Marañon Thrush *Turdus maranonicus*

5 seen at Hacienda Limon, 2 seen at El Chillo and 1 along the Utcubamba river

Black-billed Thrush *Turdus ignobilis*

Singles at Afluentes and Aguas Verdes

Tropical Gnatcatcher *Polioptila plumbea*

Common in the dry west ssp *bilineata*, 2 seen at San Marcos, common at Hacienda Limon and around Bagua Chica ssp *maior*

Inca (Green) Jay *Cyanocorax yncas*

Singles seen or heard most days near Leimebamba and at Abra Patricia

White-tailed Jay *Cyanocorax mystacalis*

4 seen at the Guan center, 3 seen at Bosque Pomac, 6 at Quebrada Limon and 2 at Chaparrí

White-collared Jay *Cyanocorax viridicyana*

Seen twice at Abra Patricia

House Sparrow *Passer domesticus*

Seen in towns

Red-eyed Vireo *Vireo olivaceus*

Singles seen at many places.

Olivaceous Greenlet *Hylophilus olivaceus*

1 seen at Aguas Verdes and 1 at Afluentes

Slaty-capped Shrike-Vireo *Vireolanius leucotis*

1 seen at Aguas Verdes

Rufous-browed Peppershrike *Cyclarhis gujanensis*

Singles seen or heard most days from Celendin to Olmos

Hooded Siskin *Cyclarhis magellanica*

Fairly common on the west slope and in the highlands.

Lesser Goldfinch *Carduelis psaltria*

2+2 seen at Hacienda Limon

Tropical Parula *Parula pitiayumi*

2 seen in the Afluentes area, Singles at the Guan center and Quebrada Limon

Blackburnian Warbler *Dendroica fusca*

1 seen above Leimebamba, 1 seen at Aguas Verdes and 1 seen at the Guan center

American Redstart *Setophaga ruticilla*

1 juv/female seen at La Encañada

Black-lored Yellowthroat *Geothlypis aequinoctialis*

5 seen at Hacienda Limon, 1 seen along the Utcubamba river, 2 seen at the Guan center

Canada Warbler *Wilsonia canadensis*

1 seen along the Utcubamba river, fairly common at Aguas Verdes-Afluentes

Slate-throated Whitestart *Myioborus miniatus*

Fairly common at Aguas Verdes-Afluentes and at Limon de Porcuya

Spectacled Whitestart *Myioborus melanocephalus*

Fairly common in the highlands from Cajamarca to the higher parts of Abra Patricia.

Citrine Warbler *Basileuterus luteoviridis*

2 seen at Abra Barro Negro

Black-crested Warbler *Basileuterus nigrocristatus*

Singles in the highlands between Cajamarca and Leimebamba and 1 seen at Limon de Porcuya

Russet-crowned Warbler *Basileuterus coronatus*

Heard at Abra Barro Negro and singles seen and heard at Abra Patricia

Three-banded Warbler *Basileuterus trifasciatus*

20 at Limon de Porcuya

Three-striped Warbler *Basileuterus tristriatus*

1 seen at Abra Patricia

Bananaquit *Coereba flaveola*

Fairly common at many places

Cinereous Conebill *Conirostrum cinereum*

20 between Cajamarca and Celendin, singles at Hacienda Limon and at Limon de Porcuya

Blue-backed Conebill *Conirostrum sitticolor*

2 seen at Abra Barro Negro

Capped Conebill *Conirostrum albifrons*

1 seen above Leimebamba, singles at Afluentes

Magpie Tanager *Cissopis leveriana*

2+2 seen at Afluentes

Grass-green Tanager *Chlorornis riefferii*

1 see at Abra Barro Negro, seen above Leimebamba and 1 seen at Abra Patricia

White-capped Tanager *Sericossypha albocristata*

3 seen at Abra Patricia

Common Bush-Tanager *Chlorospingus ophthalmicus*

Fairly common at Abra Patricia

Yellow-throated Bush-Tanager *Chlorospingus flavigularis*

Fairly common at Afluentes and Aguas Verdes

Gray-hooded Bush-Tanager *Cnemoscopus rubrirostris*

Singles seen in flocks at Abra Patricia

Northern Black-capped Hemispingus *Hemispingus atropileus*

4 seen at Abra Barro Negro

Superciliated (White-bellied) Hemispingus *Hemispingus (superciliaris) leucogaster*

1 seen at Abra Barro Negro and 2 above Leimebamba

Black-eared Hemispingus *Hemispingus melanotis*

1 seen below Abra Barro negro

Drab Hemispingus *Hemispingus xanthophthalmus*

1 seen at Abra Patricia

Rufous-chested Tanager *Thlypopsis ornata*

1 seen La Encañada, 1 seen above Celendin, 1 seen at Abra Barro negro and 2 seen above Leimebamba

Buff-bellied Tanager *Thlypopsis inornata*

2+2 seen at Hacienda Limon, 5 seen at El Chillo and 2 seen along the Utcubamba river

Rufous-crested Tanager *Creurgops verticalis*

2 seen at Abra Patricia

Yellow-crested Tanager *Tachyphonus rufiventer*

3 seen at Aguas Verdes

White-shouldered Tanager *Tachyphonus luctuosus*

1 seen at Aguas Verdes

White-lined Tanager *Tachyphonus rufus*

Singles seen daily in the lower parts of Abra Patricia and around Bagua Chica

Highland Hepatic Tanager *Piranga lutea*

1 seen at San Marcos, 1 seen between Cajamarca and Celendin, 2 seen at Hacienda Limon, 1 seen along the Utcubamba river

Scarlet Tanager *Piranga olivacea*

1 female seen at Hacienda Limon

Summer Tanager *Piranga rubra*

5 in total seen in the Abra Patricia-Afluentes area

White-winged Tanager *Piranga leucoptera*

1 female seen at Afluentes

Red-hooded Tanager *Piranga rubriceps*

2 seen above Leimebamba

Vermilion Tanager *Calochaetes coccineus*

2 seen at Abra Patricia

***Huallaga Tanager** *Ramphocelus melanogaster*

2-3 seen at Afluentes

Also called Black-bellied Tanager

Silver-beaked Tanager *Ramphocelus carbo*

Singles around Bagua Chica

Blue-gray Tanager *Thraupis episcopus*

Singles to fairly common at most places

Blue-capped Tanager *Thraupis cyanocephala*

Singles at Abra Barro negro, above Leimebamba and at Abra Patricia

Blue-and-yellow Tanager *Thraupis bonariensis*

5 seen at Hacienda Limon, singles at El Chillo and in the Utcubamba valley, 1 seen near Limon de Porcuya

Palm Tanager *Thraupis palmarum*

Singles at Afluentes

Hooded Mountain-Tanager *Buthraupis montana*

1 seen at Abra Barro Negro, 3 seen above Leimebamba and 2 seen at Abra Patricia

Lacrimose Mountain-Tanager *Anisognathus lacrymosus*

2+1 seen at Abra Patricia

Scarlet-bellied Mountain-Tanager *Anisognathus igniventris*

5 seen at Abra Barro Negro

Blue-winged Mountain-Tanager *Anisognathus somptuosus*

2 seen at Abra Patricia
